„BEAR“ FORCE AND RELIABILITY

BRIQUETTING PRESS

**RB 400 RS -
RB 600 RS**

RB 600 RS in silo execution

The RB 400 RS - RB 600 RS for the powerful briquetting of various materials

The briquetting press RB 400 RS – RB 600 RS reliable and efficient briquetting technology for the industrial production of square briquettes for volume reduction or energy recovery. The very high packing density of the square briquettes is perfect for the storage or transport. Moreover, the high-density briquettes have a very good burning behavior.

Let us help you find the best way to briquette your material.

Control panel for control and programming of the briquetting press with touch screen

Position sensor for controlling the operations of the cylinder and the form. In addition, the central lubrication system

Powerful hydraulic cylinders, gear motors for the agitator and screw conveyor

The RB 400 RS - RB 600 RS in operation in the production of square briquettes

Typ	RB 400 RS	RB 600 RS
Briquette-Dimensions (approx. mm)	150 x 60	150 x 90
Throughput (to approx. kg/h)	180 - 400	250 - 600
Hydraulic motor (kW)	30	30 - 37
Worm motor (kW)	0,6	2,2
Permanent agitator (kW)	2,2	2,2
Oil quantity (Ltr)	1.000	1,000
Weight (approx. kg)	4,500	4,500

All models are fitted with safety switches for oil temperature, oil cooling and SPS for fully automatic operation. The throughput rate depends on materials being processed.

Both briquetting presses are available in container or silo versions.

Demonstrations and tests are possible in our technical laboratory by prior agreement.

Machines from the Reinbold product line:

Series AZR 600:
The universal single shaft shredder for
woodworking shops

Series AZR 800 - AZR 2000 Gigant:
The single shaft shredder for professional
compaction of recyclables

Series AZR 600 K - 2000 K Gigant:
The single shaft shredder for effective
plastics shredding

Series RHZ 300 - RHZ 1300 S:
The horizontal shredder with horizontal
material feed

Series RMZ 500 - RMZ 1000 S:
The four-shaft shredder that is ideal
for shredding long stock

Series RB 100 - RB 300 Flexible S:
For briquetting chips and dust

Drawing on its many years of experience, Reinbold, with its broad range of machines, is able to offer ideal solutions for different applications in material shredding and briquetting. Our testing facility is available to perform tests on your material.
